

## Knob installation on Harken HighTailer Winch (IN171)

Use hex key to  
tighten M8 bolt  
(not included)

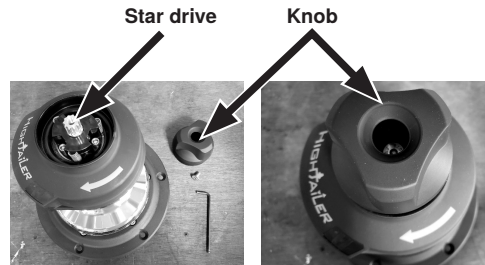

### PARTS:

M8 x 18 - Part # M0608403

Knob - Part # S 65228 00 B7

*See reverse side for instructions*

5423K

Place knob on the star drive  
and tighten the M8 to 2Nm  
(18 in lb).

Do NOT use Loctite.

Check that the knob opens  
the self-tailing jaws, by  
rotating and releasing the  
knob. The upper jaw should  
lift during rotation.

Verify that the cover can  
move up and down freely.
